

Fibre discs

FIBRE DISCS

Vulcanized fiber discs are ideal for metal deburring and anti-rust treatments. They are very resistant to heat and to moisture, thanks to the phenolic resins used in their composition. They are suitable for car repairing, sheet metal working, carpentry etc..

ZIRCONIUM DISCS			
DIAMETER	HOLE	GRANE	QUANTITY
115 mm	22 mm round or crossed perforated	24 - 120	50
125 mm	22 mm round or crossed perforated	24 - 120	50
180 mm	22 mm round or crossed perforated	24 - 120	50

ALUMINIUM OXIDE DISCS			
DIAMETER	HOLE	GRITS	QUANTITY
115 mm	22 mm round or crossed perforated	24 - 120	50
125 mm	22 mm round or crossed perforated	24 - 120	50
180 mm	22 mm round or crossed perforated	24 - 120	50
